

VARINE® O

Product description

VARINE® O is an oleyl imidazoline developed as corrosion inhibitor for greases, rust preventives and industrial lubricants.

Physical properties

Appearance @ 25 °C	slight yellow to colorless liquid
pH value (1 % in water)	11 – 12.5
Density (25 °C)	0.90 – 0.94 g/cm ³
Solubility	water – dispersible

Properties / Benefits

VARINE® O is an easy to handle liquid that is a very effective corrosion inhibitor for use in industrial lubricants and rust preventives. It is especially effective when used in combination with REWOPOL® SK 275.

Dosage / Handling

Depending on the application and the desired properties of the formulated product, it is recommended VARINE® O be used at a dosage level of 0.5 – 2.0 %.

Storage stability

In original closed containers VARINE® O can be stored at room temperature for the minimum of 12 months.

Packaging

Pallet à 724 kg (4 x 181 kg steel drums)

Registration status

The ingredients of VARINE® O are listed in the following chemical inventories:

EINECS, TSCA, AICS, DSL, ENCS, PICCS, CHINA, and ECL

Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fire
- toxicity and ecological effects

is given in our material safety data sheets.
